Raising community support for Greater Pittsburgh Community Food Bank will ensure that our neighbors have enough food to thrive! There are lots of fun ways to engage your community, neighbors, school group, place of worship or company to raise awareness and provide resources for our neighbors facing food insecurity.

Here are some ways to help:

**Host a Food and Fund Drive**
Food and Fund Drives place the power to make a meaningful difference directly in your hands. Anyone can be a host. Any time. For any occasion. Food and Fund Drives help us incorporate a larger variety of food into our distribution models.

**Host a virtual food drive**
Virtual food drives have the greatest impact for the children, families and seniors we serve. For every $1 raised, the Food Bank can provide up to five meals for people in need. Invite friends, family and colleagues to donate in honor of your birthday, graduation, anniversary, special events or holiday fundraiser. Visit pittsburghfoodbank.org to get started.

**Involves your local business**
By partnering with the Food Bank through register campaigns, drink and/or meal specials, events or promotions, you can make a meaningful impact. Cause marketing campaigns help raise awareness of food insecurity and provide meals for people in need.

**Schedule a Lunch and Learn**
Want to learn more about our mission and how we are working to feed people in need? We would love the opportunity to connect with your group virtually or in person at your next meeting or gathering.

**Sponsor an Event**
Connect with the community while supporting families in need by sponsoring the Food Bank at one of our signature events.

Get involved today.

“To pay the bills and get medicine, your social security checks gone. The food [from the Food Bank] supplements what we do get because it just goes a lot longer. Thank you.”
