

Greater Pittsburgh  
**community  
food bank**  
shop fresh program

---

Greater Pittsburgh Community Food Bank is excited to offer a special opportunity to bring more fresh produce to kids at our sponsored sites. On select Mondays, participating sites will have unique access to the Food Bank's 'shop-thru' cooler, a space filled with donated produce and other fresh items. Sites can help themselves to all the donated produce they can use at NO COST and provide this food in addition to the meals they are already serving to kids. The Food Bank hopes this program can help supplement meals for kids in your program.
